Subject: Royal Arms Fire Escape Load Testing starts Tomorrow May 22

Dear Owners, Tenants, & PMs,

Load testing for the fire escapes will begin Wednesday, May 22, and will continue the following Thursday, Friday, and Tuesday. Successful testing is critical for Fire Marshal approval of the fire escape work we had done this year.

Front of the building access will be limited during those workdays (8am - 3pm). Please use the east and west doors during the day. I'm sure they will be leaving equipment overnight, so the sidewalk will probably be impacted again.

I'm hoping this does not have a big impact. Please contact me or Heather if you have any questions or concerns.

Cross your fingers for successful testing!

Thank you,
Nancy Hillig
Royal Arms HOA Board Chair
